**EMERGENCY MANAGEMENT TRAINING FOR
LOCAL OFFICIALS**

MICHAEL LOPER, PEM, MEP

Homeland Security Specialist

Oakland County Emergency Management

March 15-16 | Lansing Center, MI

CAP
CON
2022

Goals and Expectations

The goal of this session is to enhance the knowledge base of senior / executive / elected officials from Michigan municipalities concerning providing leadership during preparing for, responding to, and recovering from an emergency or disaster situation to include:

- **Severe Weather** (tornado, wind, flooding, extreme ice and snow)
- **Mass Violence** (school shooting or attack at a large public gathering resulting in mass casualties and fatalities)
- **Transportation or fixed site emergency** (such HAZMAT, transmission pipeline)
- **Other incidents that may have significant impact on your community.**

Emergency Management Overview

- Tiered: Local-County-State-Federal
- Michigan Emergency Management Act; Public Act 390 of 1976, as amended
- MSP Emergency Management & Homeland Security Division (MSP / EMHSD)
- Federal Emergency Management Agency (FEMA)
- Stafford Act
- Emergency Operations Center (EOC)
- Multi-Agency Coordination (MAC)
- Declaration process; activation of EOP and EOC
- Emergency Protective Measures

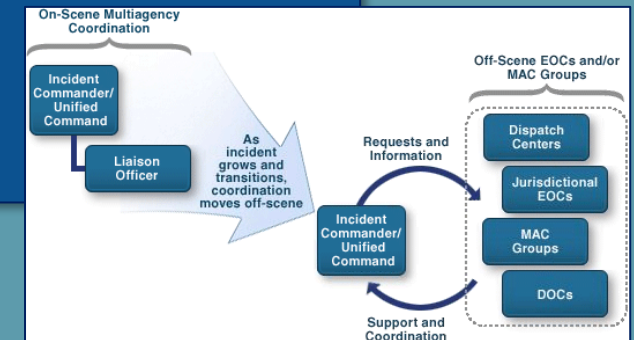

National Incident Management System (NIMS) Overview

- Incident Command System (ICS)
- On-scene; tactics and resource deployment
- Unified Command
- Incident Action Plan (IAP); management by objectives
- ICS Interface with EOC / MAC
- ICS training for responders and supervisors
- Implement ICS into planning and exercises

National Incident Management System

Third Edition
October 2017

Emergency Operations Plan (EOP)

- Local / County EOP
- Local Support Plan the County EOP
- School EOPs
- Hospital EOPs
- Implementing NIMS; target capabilities missions and tasks
- Planning process; whole community approach, inclusion
- Annexes, SOP / SOGs, checklists, pre-existing contracts / memorandum of understanding or agreement (MOU / MOAs)
- Exercise the plan; after-action and improvement planning (HSEEP)
- Hazard Mitigation Plan (HMP) & THIRA

Disaster Response and Recovery Process

- 9-1-1 / Public Safety Answering Point (PSAPs)
- Initial response by police, fire-rescue, EMS, and public works
- Controlling access and implementing protective actions (evacuation)
- Mutual Aid
- Managing public information (media, social media, press conferences)
- Managing expectations (general public and elected officials)
- Life Safety Priority; followed by property and environment protection
- Stabilizing the situation and maintaining situational awareness
- Declaring a local State of Emergency; formal requests for assistance
- Damage and Impact Assessment (initial and sitrep)

Disaster Response and Recovery Process

(continued)

- Document everything: tracking costs, personnel, policies and decisions
- Debris management (removal / collection public vs private property; bids, contractors, reduction, temporary storage, monitoring)
- Overtime expenses: especially public safety, public works
- Engage everyone – force multipliers, but watch for burn-out; IT /GIS, Finance, HR, Purchasing, and Building Officials are very important
- Participate in Joint Preliminary Damage Assessment (PDA)
- Public Assistance (PA) – applicant or grantee; grants / cost sharing
- Individual Assistance (IA) and SBA

Debris removal guidelines

In efforts to expedite the debris removal process, please follow these rules

Separating Your Debris

Debris should be placed curbside, without blocking the roadway or storm drains.

DEBRIS SEPARATION
Separate debris into the six categories shown below.

DO NOT STACK OR LEAN
Placing debris near or on trees, poles, or other structures makes removal difficult. This includes fire hydrants and meters.

UNSURE WHERE TO PLACE DEBRIS?
If you don't have a sidewalk, ditch, or utility line in front of your house, place debris at the edge of your property before the curb.

NO PICKUP ZONE
Any debris placed from the sidewalk toward your property will not be picked up.

Normal Household Trash
Normal household trash and bagged debris of any kind will not be picked up with disaster debris. You should continue to follow your normal garbage removal schedule.

VEGETATIVE DEBRIS
Leaves (do not put in bags)
Logs
Plants
Tree branches

CONSTRUCTION & DEMOLITION DEBRIS
Building materials
Carpet
Drywall
Furniture
Lumber
Mattresses
Plumbing

APPLIANCES & WHITE GOODS
Air conditioners
Dishwashers
Freezers
Refrigerators
Stoves
Washers, dryers
Water heaters

ELECTRONICS
Computers
Radios
Stereos
Televisions
Other devices with a cord

HOUSEHOLD HAZARDOUS WASTE
Cleaning supplies
Batteries
Lawn chemicals
Oils
Oil-based paints and stains
Pesticides
