DEPARTMENT OF LABOR AND ECONOMIC OPPORTUNITY
WORKERS’ DISABILITY COMPENSATION AGENCY

GENERAL RULES

EMERGENCY RULES

Filed with the Secretary of State on March 30, 2020

These rules take effect upon filing with the Secretary of State and shall remain in effect for 6 months.

FINDING OF EMERGENCY

These rules are promulgated by the Director of the Workers’ Disability Compensation Agency, Department of Labor and Economic Opportunity, to establish emergency rules to declare that certain employees suffer a compensable personal injury under the Worker’s Disability Compensation Act due to COVID-19.

On March 10, 2020, Governor Gretchen Whitmer declared a state of emergency in response to the COVID-19 pandemic. On March 13, 2020, the President of the United States declared a national emergency in response to the COVID-19 pandemic. Employees working in the health field, first responders, and those providing health services during this time are the most susceptible to exposure to this virus. There are no current administrative rules that provide guidance to employers, carriers, or employees on the treatment of exposure to COVID-19 with respect to workers’ compensation coverage.

If the non-emergency process specified in the Administrative Procedures Act for the promulgation of rules were followed, employees most susceptible to exposure to COVID-19 would face uncertainty and financial hardship during the most critical period of response to this epidemic. Accordingly, following the non-emergency process would undermine the effectiveness of Michigan’s emergency response to COVID-19.

The Director, therefore, finds that the preservation of the public health, safety, and welfare requires the promulgation of emergency rules as provided in section 48 of the administrative procedures act of 1969 (APA), 1969 PA 306, MCL 24.248, without following the notice and participation procedures required by sections 41 and 42 of the APA, MCL 24.241 and 24.242.

Rule 1. Injuries to first response employees.
Unless proven otherwise, a first response employee suffers a personal injury that arises out of and in the course of employment if the first response employee is diagnosed with COVID-19,

March 30, 2020
whether by a physician or as a result of a test. Denial of a claim by a first response employee diagnosed with COVID-19 violates the worker's disability compensation act of 1969, 1969 PA 317, MCL 418.101 to 418.941, and is subject to the penalties provided by section 631 of the worker's disability compensation act of 1969, 1969 PA 317, MCL 418.631, unless the denial is based on specific facts demonstrating that the first response employee was not exposed to COVID-19 at work.

Rule 2. Definition.
(1) As used in these rules, "first response employee" means any of the following:
(a) A person working in ambulance operations and advanced mobile emergency care services, county medical care facilities, emergency services, emergency medical services, homes for the aged, hospices, hospitals, or nursing homes.
(b) A person working in a home health agency or visiting nurse association.
(c) Any person working as a physician, physician assistant, nurse, emergency medical technician, paramedic, or respiratory therapist.
(d) Any police officers, fire fighters, emergency medical technicians, on-call members of a fire department, volunteer civil defense workers, on-call members of a life support agency, or members of an emergency rescue team, as those terms are used in the worker's disability compensation act of 1969, 1969 PA 317, MCL 418.101 to 418.941.
(e) A member of the state police or an officer of the motor carrier enforcement division of the department of the state police.
(f) A state correctional officer or local corrections officer.

Rule 3. Application of other rules.
These emergency rules supersede the entirety of the emergency rules filed March 18, 2020.
